

## SIGNS AND SIGNALS PACKAGE

Ensuring that personnel and visitors coming into your facility are safe is a number one priority. To meet this need, Smith & Wesson Security Solution offers signs and signals packages to increase awareness of your barrier systems for approaching drivers. Our signs and signals packages advise drivers on how to safely proceed into your facility and alert them to when a barrier is activated. The packages can come designed to fit Smith & Wesson barrier solutions and can also be integrated into your existing perimeter security system.

## OVERVIEW

- Alert drivers that they are approaching a security gate
- Advise drivers on where the barrier is located and how to proceed
- Instruct drivers on which lane to proceed in,
